SUMMARY

Skilled in web development with expertise in HTML, CSS, JavaScript, and React, while currently expanding knowledge in MERN stack development. Experienced in working with ServiceNow (CSA & CAD). With a background in agriculture engineering and hands-on projects in smart agro-tech solutions, bringing together both technical expertise and domain knowledge.

PROJECTS

Personal Portfolio website

January 2025 - March 2025

- Description: Designed and developed a responsive personal portfolio website to showcase projects, skills, and achievements using HTML and CSS.
- Tools Used: HTML, CSS
- Outcome: Created a visually appealing and professional platform that highlights personal work, ensuring better visibility for academic and career opportunities.

Flower Shopping Website

August 2025

- Description: Developed a responsive and user-friendly flower shopping website using HTML, CSS, and JavaScript.
- Features: Product listing with images and pricing, interactive shopping cart, search and filter options, and smooth navigation for enhanced user experience.

Hotel booking website

July 2025 - Present

- Description: Developed a hotel booking website that allows users to search, view, and book hotels based on location, price, and amenities, providing a seamless reservation experience.
 - Tools Used: MERN stack.
 - Outcome: Created an interactive and responsive web application that streamlines the hotel booking process, improving user convenience and showcasing skills in full-stack development and database integration.
-
